Solo Report:

Solo Chair VanVranken reported his primary Solo vehicle is assembled, running and ready to go for the next event on June 15th. At the last event on Saturday, the first run group was able to complete 6 runs, while the second run group did not complete their runs before severe storms hit the area. However, the second run group was able to complete their runs Sunday morning before the official Sunday event started.

The topic of competitors going four-off during their runs and how best to deal with it, was once again a hot topic. As ARE Mangicaro stressed, his primary concern is to ensure the safety of the workers out on course. The discussion continued for some time. It was finally decided that for the June 15th event, the rule would be the first time a competitor goes four-off, they will have a discussion with the Safety Steward. If they have a second four-off, they will be barred from competing for the remainder of the event.

The Solo Chair expressed his interest in resuming a monthly Solo board meeting. Details to be announced.

He also noted the Solo trailer roof is still leaking and needs further repairs and sealing.

RallyX Report:

RallyX Chair Moellering is planning on conducting testing at the new site this Saturday. He is also looking for an onsite, equipment storage solution that can be moved. Contact Vince directly with any recommendations.
